Nutraceuticals and Health Care Products

Sankalp Life Care is a state-of-the-art catalyst in manufacturing and direct selling of Nutraceuticals and numerous Healthcare products.

It's All In The Name...

As our name 'Sankalp' suggests, we are determined to be the medium of change. We are dedicated to bring the change, for the greater good, both in the excellence of products in terms of manufacturing quality and the upgrade in the access to healthcare products. As a company we believe in use of Advance Research and work towards preventive care through dietary supplements and Nutraceuticals products, thus impacting overall Life style of the masses. Sankalp envisages stepping beyond Indian shores and explore avenues in the rest of the world.

Our Services

Vision

We envision innovation and setting up of new quality benchmarks for ourselves in the development and manufacturing of quality healthcare products and be the pioneer in large nutraceutical facilities.

Mission

Sankalp Life Care is on a mission to pioneer change in preventive care and be a leading manufacturing facility for nutraceuticals in India and then extend its presence in the rest of the world in the next five years. Accentuate research and development and innovate, introduce new ways to achieve quality and innovation in the manufacture and delivery of pharma products will be critical in achieving this.

Sankalp Life Care among Top 10 Largest Nutraceuticals Facilities

Determination towards quality adherence and strict following of standards has enabled SLC to be among the top 10 largest nutraceutical facilities. Our facility is designed as per the standards defined by WHO and CGMP and follows all required protocols by ISO, FSSAI & FDA. Thus, it will be capable of manufacturing products which can be exported to US, Europe and ROW Market. We have more than 500 readymade formulae available which can be used by brands. Our Manufacturing facility is a zero discharge facility, thus taking good care of the environment.

Our strengths

Quality of products manufactured at our plant.

Manufacturing capability of total dosage form in Nutraceuticals - like tablet, capsule, liquid, sachet and gummies.

Products manufactured in our plant can be exported to US, Europe & ROW Market.

Company has dedicated, highly-educated, experienced pharma people who have more than 20-25 years of experience in this industry.

Contract Manufacturing as per client standards and demand.
